

Maxibit Gallery, Snap-lock Profile

Stunning style and Scandinavian Lines

Gallery is the perfect tool for wall mounted signs, hanging displays or free standing graphics when placed on a pole and foot. Engineered from a strong, light weight aluminum, Gallery's main feature is its impressive snap lock profile. The profile is perfect for displaying fabric images, laminated signs and graphics mounted directly onto 3 mm board. The snap lock profile offers a polished good look few can resist and with its titanium finish, will impress the most unenthusiastic audience. Gallery looks just as good hung from the ceiling as it does mounted on a wall and, when placed on a pole and foot, looks just as sensational. The tripod foot is the essence of fine Scandinavian design and allows the system the ability to stand tall and proud in crowded areas or as a stunning banner stand for that essential brand building moment.

Mount it, hang it, have it standing!

Gallery is an extremely versatile marketing display. Whilst many rival systems will hang from the ceiling or stand tall on a pole and foot, Gallery's wall mounting kit sets it apart from inferior rivals. The wall mounting kit can be purchased with any gallery and will attach the system to any solid object within minutes. Gallery can then be taken off the wall or put back in seconds, turning what was once a very permanent display into a fully mobile marketing tool. Gallery can be ordered to any length between 50 cm and 200 cm, and can be attached to other gallery systems to expand smaller systems into larger displays for a much bolder message or for added portability. The pole that it sits on is adjustable between 88 cm and 225 cm and all Gallery graphics are exchangeable with perfectly alignment every time. By snapping open the profile, the graphics are quickly removed. Just as quickly a new graphic can be added, making Gallery extremely effective when you constantly need to change your message.

Why choose a snap-lock system

- Great in shopping centers, stores, smaller events etc.
- Profile holds a large variety of different materials
- Mount directly on the wall, hang from ceiling or use free-standing with adjustable poles
- Create different widths and heights
- Can be used single or double sided with poles
- Change messages quickly
- Contemporary design
- Quick and easy set-up
